Portraits from the **2006 Ace /CMN Hawaii Golf Shootout** Viewing, downloading & ordering images

We hope you enjoyed your stay and the Shootout; we created many portraits to help you remember it for years to come. They will be online for a limited time, so please call us to order by 3-15-06. A "Primary Contact" person will work with you, so you can receive personalized care. It is more difficult to order portraits over the phone and internet than in person, but we've become skilled at making this work. Since it takes time to download such a large collection of images, we divided them into different shows and PDFs; high speed connections are highly recommended to view these images. *A personal comment from Karl Joyce, photographer: "This is the first time I photographed this event, I was impressed by the heartfelt intentions of everyone involved; from Zac's speech to Steve Young's signing a photo for my son and everything in-between that was done to help such an important cause, this was an excellent event that brought out the best in everyone involved"*

**Please offer suggestions and testimonials** about the photography coverage; we would like to improve our service and let others know what we are doing right! We are considering an automated ordering service shortly; if you would like to be notified of this please email us at: [ndimaging@gmail.com](mailto:ndimaging@gmail.com)
